

## Our Thanks.....

---

Bosco takes this opportunity to gratefully express its appreciation to all its partners who have lent their support to propagate its mission of service during the last financial year.

We place on record our gratitude for all the support of our funding and training partners in India and abroad who over the years have stood by us in serving the marginalized sections of the society especially the youth.

Our task is defined as building capacities of the marginalized especially the youth and it is your support that makes possible to achieve our goal year by year. We dedicate all our success and achievements to your cooperation and support.
